Performance Appraisal Form
BK/HRP/01

PERFORMANCE APPRAISAL FORM

Introduction to the Form :

The Form consists of 2 sections - A & B, Section A relating to Performance Evaluation and Section B relating to Evaluation of Attributes affecting Performance. Mean ratings for each section are arrived at. The average of Section A and Section B mean values (with equal weightage) gives the Final Score.

Section B comes in two versions – one for levels MM3 and above and the other for levels SG4 to JM1.

Job Performance (Section A) is evaluated by both self and appraiser.
Attributes (Section B) are evaluated by first Appraiser and second Appraiser (as the case may be) for levels SG4 to JM1. For levels MM3 and above, attributes are evaluated by self and appraiser.

However, all appraisals are to be conducted in the presence of the appraisee, explaining the justification of the ratings and indicating ways to improve the score. The appraisee is required to sign at the end of the Form to express his concurrence to the assessment of his superior (s).

The whole exercise will be carried out bi-annually, by the end of March and September, every year. Salary revisions (if applicable) will take place only twice a year – beginning of April and beginning of October. **However, this does not make it mandatory for employees to be awarded increments every six months**.

Apart from all confirmed employees, any new joinee who completes a minimum of three months with the organisation as on April 01 or October 01 would also fall under the purview of this Appraisal system. The Management reserves the right to confirm an employee earlier than the scheduled period of six months as a form of special recognition.

All ratings will be done on a 10 Point Scale as follows :

Numeric Rating	Remark	Explanation
9,10	Outstanding	Consistently exceeds job requirements
7,8	Very Good	Exceeds job requirements at times
5,6	Good	Meets job requirements
3,4	Average	Falls short of job requirements at times
1,2	Poor	Consistently falls short of job requirements

For all computation purposes, appraiser's rating alone will be considered. The provision of self-rating is kept to assess the degree of congruency of views between the appraisee and the appraiser. Reviewing authority / HR will intervene when stark variations between both ratings are evident.

All recommendations of the reporting authority are to be duly approved by the reviewing authority in writing. The decision of the reviewing authority will be final.

Explanation of terms (Section A) :
KPA : The Key Performance Areas emerge from the organisation and department goals and specifies the individual's role focus areas in relation to the larger goal.
Target : Target will specify the quantum of KPA.
Action Areas : This relates to the HOW of the KPA and target.
Resources required : The appraisee and appraiser are required to specify the resources that will be required to achieve the set target.
Achievement : The Achievement will specify the actual target met against which there will be a rating by appraisee and appraiser.

Appraisal Period (Year): 20_____ to 20_____
Name : _____
